

# General Team & LV2 Meeting - 02/02/00

At the meeting: Jimmy, Anthony, Jamie, Mattr, Mattmc, Brian, Ron, Tim, Michael, Dennis, Andrew, Paul  
New members: Matts, Marius

## ***Introduction to new members:***

- LV0
- LV1 (video)
- LV1b upgrade
- LV2

## ***LV2 Team update:***

### *Airframe (Brian):*

- Have aluminum for one airframe
- Need to make two complete airframes
- Will be doing layup of the airframes in the next couple of weeks

### *Propulsion (Matt):*

- Fuel has been roughly characterized
- Tested motors with John Lingdal last weekend: successful test of a "K" and "M" motor (w/ MPEGs)
- 2+ weeks until PSAS motor test fire!

### *Avionics (Andrew, Ron & Paul):*

- Nothing new on avionics; LV1b still taking priority
- GPS
  - Ron & Dana may have access to a potential DGPS system
  - Probably won't do uplink of DGPS on the 2m - too much feature creep!
  - Paul still hasn't heard back from SiGEM

## ***PR (Brian, Todd):***

- Brian is creating a brochure for potential sponsors
- Michael - speaking to PSU Director of Enrollment
- Russian Rockets on April 15/16: we'll organize for that during the April meeting
- Need to make more business cards for people
- PowerPoint presentation for schools (and potential sponsors?)
- Need to get letters of support from Hall/Casperson

## ***Fundraising (Andrew, Brian, Michael):***

- Tool vendors to contact: Matlab, OrCAD, Pads, (Veribest?), Material donations, development stuff
- PSU Enrollment \$
- Oregon Space Grant
- AT&T Enterprise Award?
- Local industry (need brochure)

## ***Other Business:***

- Next Meeting: 3/1 - CARS presentation, Team updates, new people.
- Russian Rockets Day @ OMSI
- Air force tour
- Matt's Computers
- Enrollment banquet, presentation to schools (being setup via Michael)
